

# CPAP Mask solutions

*A breath of fresh air*

At RESPiRE, we have recognised that a range of masks is of ultimate importance to the CPAP clinician. Unfortunately there is not such a thing as a 'one mask fits all' solution - that is why we offer options.

Whatever your requirement, you can be assured that from our range of CPAP masks, you will find the perfect fit, to maximise comfort AND compliance every time.

So browse through our unique range of premium quality CPAP masks at your leisure to find the interface that will satisfy your patient's needs. And should you require any assistance, remember... we are only a brief phone call away.

## All RESPiRE masks are:

- Supplied in single packages, complete with headgear;
- Made up and ready to use straight from the package;
- Easy to clean and re-assemble – with instruction booklet supplied.

# Minimal-contact masks

## R2100 - Venise Nasal Pillows Mask:

The Venise is the perfect mask for any nasal-breathing patients who are sensitive to enclosed spaces. Designed to be less obtrusive than a traditional nasal mask, the pillows mask makes therapy less intimidating and therefore easier to accept. The Venise is built for comfort, combining a soft foam-covered headgear with ultra-soft, springy nasal pillows.

### Mask features:

1. **Three pillow sizes** in one convenient package reduces stock requirements
2. **Dual-wall nasal pillows** for a gentle, precise seal
3. **360 degree rotating elbow** provides flexibility for tube positioning
4. **Quiet vents** direct airflow silently away from user & partner
5. **Extra flexible, lightweight tubing** to minimise pull on the mask
6. **Easy-clip cushion piece** for easy cleaning & assembly

ORDER CODE	SIZE	DESCRIPTION
R2100	S/M/L	Respire Venise nasal pillows mask, complete
R2110	S	Small Venise nasal pillows
R2111	M	Medium Venise nasal pillows
R2112	L	Large Venise nasal pillows
R2113	1-SIZE	Venise headgear
R2114	-	Venise Tube

## R2200 - Easy-Resp Oral Mask:

Easy-Resp has been designed for patients who have chronic nasal obstruction, but for whom a full face mask is too obtrusive. The oral mask has been proved to function just as effectively as a nasal mask.

### Mask features:

- One size mask with choice of 3 headgears
- Vented and non-vented options in one convenient package
- Quick-release Velcro headgear strap for quick and easy mask fitting and removal

ORDER CODE	SIZE	DESCRIPTION

R2214	-	Easy-Resp non-vented elbow

# Nasal masks

## R3100 - PRIMO N Nasal Mask:

The Primo N mask offers unrivalled flexibility. Featuring the unique twist control adjustable forehead support, it will fit the vast majority of patients precisely and comfortably. Reference numbers on the twist control mean Primo N is **quick and easy to fit**, and like all other Respireo masks, it is **lightweight yet very robust**. Achieving a perfect fit, first time, Primo N is the essential first choice nasal mask for every CPAP clinic.

### Mask features:

1. **Unique 16-stage twist control adjustable forehead support** for fine adjustments, providing unrivalled accuracy when fitting
2. **Dual-wall nasal cushion** for a gentle, precise seal
3. **Two 360 degree swivels** allow tubing to move freely
4. **Quiet vents** direct airflow silently away from user & partner
5. **Easy-clip cushion piece** for quick cleaning and simple assembly
6. **Headgear loops** simplify attachment and detachment of headgear
7. **Premium dual wall forehead pad** improves comfort & fit
8. **Three mask sizes available** to suit most requirements
9. **One-size lightweight, breathable headgear** for optimal comfort

R3114	-	PRIMO N single forehead cushion
R3115	-	PRIMO N elbow tube clip

## R3200 - BestFit Nasal Mask:

An excellent alternative to the Primo N, the BestFit nasal mask also has a simple 4-stage adjustable forehead support to help achieve the right fit.

### Mask features:

- **Quick release headgear clips** for convenient mask fitting/removal
- **One-size lightweight, breathable headgear** for optimal comfort
- **Four mask sizes available** to suit most requirements
- **4-stage adjustable forehead support** for a secure and precise fit
- **Dual-wall nasal cushion** for a gentle, precise seal with non-stick frosted outer seal to prevent dirt trapping
- **Two 360 degree swivels** allow tubing to move freely
- **Unique built in vent around elbow join** directs airflow away quietly from user & partner
- **Easy-clip cushion piece** for quick & easy cleaning
- **Premium dual wall forehead pad** improves comfort & fit

## R3300 - Respireo Nasal Mask:

If you are looking for a nasal mask that is simple to use, yet still just as comfortable as our leading Primo N mask, why not try the standard Respireo nasal mask?

### Mask features:

- **Three mask sizes available** to suit most requirements
- **One-size lightweight, breathable headgear** for optimal comfort
- **Two 360 degree swivels** allow tubing to move freely
- **Quiet vents** direct airflow silently away from user & partner
- **Easy-clip cushion piece** for quick cleaning and simple assembly
- **Headgear loops** – simplify attachment and detachment of headgear; retain optimal headgear settings
- **Premium dual wall forehead pad** improves comfort & fit
- **Robust, flexible forehead support** for simple, concise fit
- **Dual-wall nasal cushion** for a gentle, precise seal

R3314	-	Respireo single forehead cushion
R3315	-	Respireo elbow tube clip

# Full face masks

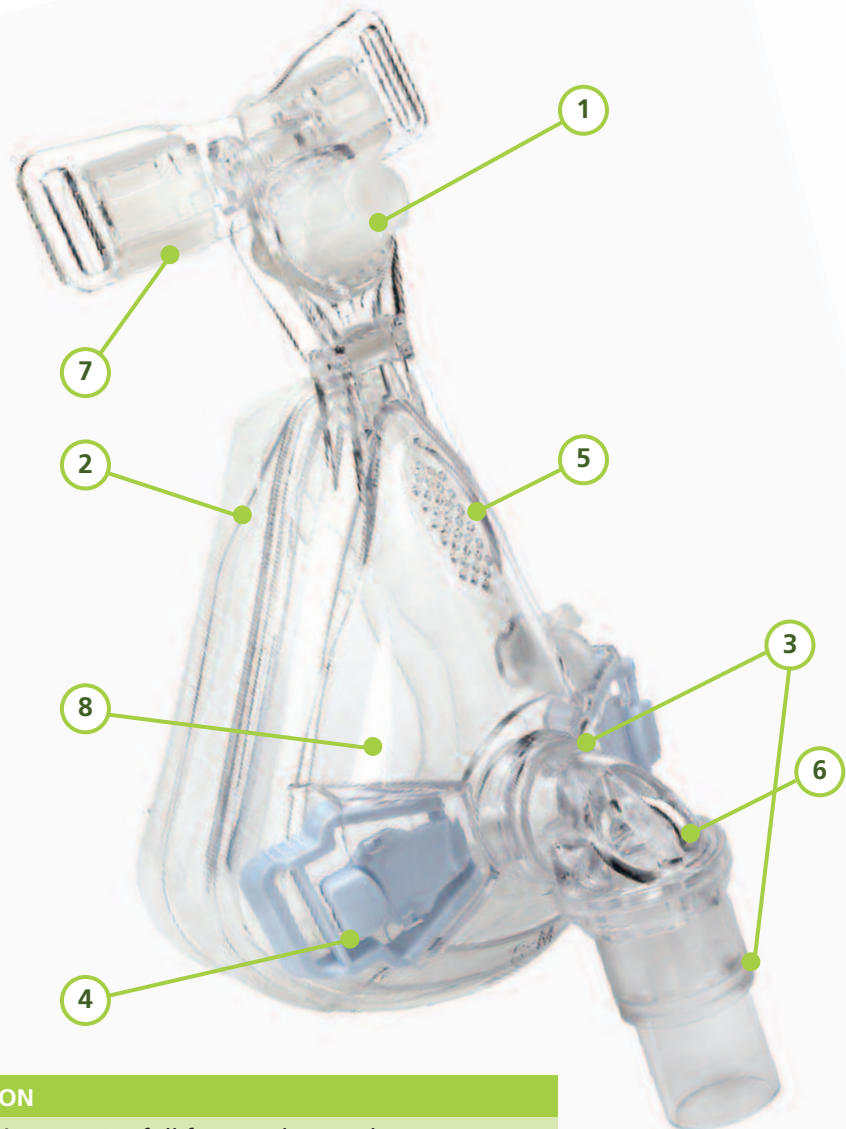

## R4100 - PRIMO F Full Face Mask:

The flexibility of the Primo F mask is unrivalled amongst full face CPAP masks. With its unique 16-stage twist control adjustable forehead support, it will fit the vast majority of patients precisely and comfortably. Reference numbers on the twist dial mean Primo F is **quick and easy to fit**, and like all other Respireo masks, it is **lightweight yet very robust**. Primo F is the essential first choice full face mask for every CPAP clinic – for the perfect fit, first time.

### Mask features:

1. **Unique 16-stage twist control adjustable forehead support** for fine adjustments, providing unrivalled accuracy when fitting
2. **Dual-wall cushion** for a gentle, precise seal
3. **Two 360 degree swivels** allow tubing to move freely
4. **Quick release headgear clips** for convenient mask fitting/removal
5. **Built-in vents** provide minimal noise output
6. **Fitted with AAV** (Anti-Asphyxia Valve) – for safe CO2 exhalation
7. **Premium dual wall forehead pads** improve comfort & fit
8. **Three mask sizes available** to suit most requirements
9. **One-size lightweight, breathable headgear** for optimal comfort

ORDER CODE	SIZE	DESCRIPTION
R4101	S	Small Respire PRIMO F full face mask, complete
R4102	M	Medium Respire PRIMO F full face mask, complete
R4103	L	Large Respire PRIMO F full face mask, complete

R4113	1-SIZE	PRIMO F headgear
R4114	-	PRIMO F single forehead cushion
R4115	-	PRIMO F elbow tube clip
R4116	-	PRIMO F quick release headgear clip

## R4200 - BestFit Full Face Mask:

The BestFit full face mask is a fitting example of the options we offer at Respire. The BestFit full face has been designed as an alternative to the Primo F mask, for those who prefer a more minimalistic, easy to use full face mask.

### Mask features:

- **Robust, semi-flexible forehead support** for concise fit
- **Fitted with AAV** (Anti-Asphyxia Valve) – for safe CO<sub>2</sub> exhalation
- **Quick release headgear clips** for convenient mask fitting/removal
- **One-size lightweight, breathable headgear** for optimal comfort
- **Three mask sizes available** to suit most requirements
- **Dual-wall cushion** for a gentle, precise seal with non-stick frosted outer seal to prevent dirt trapping
- **Two 360 degree swivels** allow tubing to move freely
- **Unique built-in vent around elbow join** directs airflow away quietly from user & partner
- **Easy-clip cushion piece** for quick & easy cleaning
- **Premium triple wall forehead pad** improves comfort & fit

ORDER CODE	SIZE	DESCRIPTION
R4201	S	Small Respire BestFit full face mask, complete
R4202	M	Medium Respire BestFit full face mask, complete
R4203	L	Large Respire BestFit full face mask, complete

R4214	-	BestFit full face forehead cushion
R4215	-	BestFit full face elbow tube clip & AAV
R4216	-	BestFit quick release headgear clip

## R4300 - COMFO Full Face Mask:

Exceptionally soft and comfortable, the RESPIRE Comfo is a minimal-contact full face mask, developed for patients who prefer something more compact, with a clear line of vision.

### Mask features:

- **One piece shaping** – lightweight, easy to clean
- **Wide range of sizes** to fit more patients
- **Clear line of vision** - no forehead support
- **Two 360 degree swivels** allow tubing to move freely
- **Quick-snap headgear clips** for convenient mask fitting/removal
- **Vent cover** directs airflow quietly away from user & partner
- **Dual-wall cushion** for a gentle, precise seal with non-stick frosted outer seal to prevent dirt trapping
- **Fitted with AAV** (Anti-Asphyxia Valve) – for safe CO<sub>2</sub> exhalation

ORDER CODE	SIZE	DESCRIPTION
R4301	S	Small Respire Comfo full face mask, complete
R4302	M	Medium Respire Comfo full face mask, complete
R4303	L	Large Respire Comfo full face mask, complete
R4304	XL	Extra-large Respire Comfo full face mask, complete
R4310	1-SIZE	Comfo headgear
R4311	-	Comfo headgear clips (x2)

## R4400 - Total Face Mask:

The RESPIRE total face mask is a comfortable alternative for patients who cannot obtain a proper seal with a nasal or full face mask. The total face mask covers the entire face, so there are no pressure points around the patient's nasal area to cause sores or skin breakdown. The mask also provides a clear line of vision, which helps to minimize the feeling of claustrophobia that some patients experience.

ORDER CODE	SIZE	DESCRIPTION
R4401	1-SIZE	Respire vented total face mask, complete
R4402	1-SIZE	Respire non-vented total face mask, complete
R4410	1-SIZE	Total face mask headgear

The unique gel density of these masks has been designed to exactly mimic the softness of youthful skin making it fantastically comfortable against the patient's face. The unique flexible mask shell bends to fit the user's face perfectly. Choose a gel mask for absolute comfort.

## R5100 - IQ Nasal Gel Mask:

### Mask features:

- **One-size design** – no need to stock various sizes
- **Extra-flexible, lightweight tubing** to minimise pull on the mask
- **No forehead support** gives a clear line of vision
- **Available vented and non-vented**

ORDER CODE	SIZE	DESCRIPTION
R5100	1-SIZE	IQ nasal gel mask, complete
R5110	1-SIZE	IQ headgear
R5111	-	IQ tube

## R5200 - Phantom Nasal Gel Mask:

### Mask features:

- **Wide gel cushion** disperses pressure over cheek area for balanced and ultra comfortable feel, reducing irritation on the bridge of the nose
- **Extra-flexible, lightweight tubing** to minimise pull on the mask
- **No forehead support** gives a clear line of vision

ORDER CODE	SIZE	DESCRIPTION
R5200	1-SIZE	Phantom nasal gel mask, complete
R5210	1-SIZE	Phantom headgear
R5211	-	Phantom tube

## R5300 - Mini-Me Paediatric Nasal Gel Mask:

### Mask features:

- **Paediatric mask**, specially developed for children aged 2-12 years
- **Available vented and non-vented**
- **Gel-fit system** allows gentle adjustment to contour to the child's face for perfect fit
- **Ultrasoft "comfort fit" gel** also helps care for a child's soft skin

ORDER CODE	SIZE	DESCRIPTION
